

Faithfull (FAIOCPROTCAS) Cast Iron Rotary Pump

The Faithfull Cast Iron Rotary Pump is an economical and simple solution for the manual dispensing of diesel and oil, primarily from a drum, but also from other types of storage tanks. Complete with a 2in bung adaptor for a secure hold and a built-in strainer to filter out any contaminants. Robust cast iron construction and a telescopic suction tube, that when extended can reach a maximum length of 1m. Due to the cast iron construction this pump is not suitable for handling liquids with a flash point below 55 C. Specification: Pipe Length: 1000mm Max. Capacity: 205 litres Max. Flow Rate: 310ml per revolution Max. Viscosity: 410cSt Oils up to: SAE140 Temperature Range: -10 C to + 55 C
