

Roughneck (ROU11070)

# Gorilla V-Series Axe 0.6kg (1.1/4 lb)

The Roughneck Gorilla V-Series Axe offers increased striking power and reduced vibration. Manufactured from drop-forged, hardened and tempered steel. The unique V-Shock twin-beam girder shaft acts as a damper, resulting in reduced shock and vibration transmission, and further controlled by an air-cushioned grip. Reduced weight in the shaft transfers the centre of gravity towards the head, resulting in improved balance and reduced effort. The integrated nail puller allows nails to be removed with ease. There is a lanyard hole in the base of the handle, ideal for safe and secure tethering when working at height.
