### Debris Netting

Datasheet Number:

Product Code:

10/003/022 – 10/003/342

Product Category:

Netting

Last Revised Date:

28/07/2020

#### Description:

Our debris netting comes in multiple colors and an option of 2m and 3m sizes, our debris netting is eyeleted every 5cm (Approx) to make this easier to apply. Our debris netting is packed in a single polybag.

#### Product Specification & Details

Material	HDPE
Size	2M & 3M x 50M
Eyelets	Fabric Every 5cm
Temperature Range	-70°C to +100°C
Air Permeability	>1,700
Colours	Green, Blue, Red, Yellow, Black, Orange and White.
Product Packaging	Packed in a Single Polybag
Pallet Quantity	Dependent on Size

#### Further Information:

Debris netting is used for protection from debris, when attached to scaffolding on building sites the surrounding pedestrians will be safe. Debris netting comes in many different colors and being UV Stabilized means the colour can withstand the UV rays without much affect.

Please be aware that the information is given in trust and is based on the latest knowledge known by One Stop Sourcing & Supply Co. Whilst all aspects have been covered to ensure the contents of this datasheet are up to date at the time of handover, please be advised that products, techniques and codes of Practice are under constant review and are likely to change at any moment, up to date information would be available on request. One Stop Sourcing & Supply Co. will not accept responsibility for the application of products, and therefore no claims will be considered, where the manufacturer's instructions have not been followed. Please be aware all products represented on this data sheet are only fit for intended purpose and not for abnormal use. All our products are sold subject to our standard conditions of sale.
