

# COMPRESSOR HOSE ASSEMBLY

GPA Series

This professional compressor hose assembly, with heavy duty safety claw clamps, is the cost-effective, high-performance TPE alternative to rubber hosing. While looking and feeling like rubber, it has many advantages including a longer lifespan. Manufactured from a hard wearing PVC Nitrile blend, this ergonomically-friendly super-flexible product is a real winner in many industrial environments.

## Key Features:

- Professional 15m air compressor assembly including safety claw clamps.
- Every coil is pressure tested off the line.
- PVC Nitrile blend gives good abrasion and ageing resistance – superior to rubber.
- Clean, flexible and user-friendly.
- Reduced plasticizer migration.
- Excellent resistance to UV / Ozone.
- Silicone and Cadmium free.
- Service Temperature - 15°C to + 60°C.
- 3:1 safety factor.
- **Every hose is fully tested to 20 Bar during manufacture.**

## Sizes:

Available in 15m coils  
Other sizes available upon request

## Colours:

Yellow

1. Double lock quick release coupling (DLQR)
2. Safety clamp with locknut fitted for additional safety
3. High strength PVC reinforced hose

## Applications:

- Compressed air tools
- Spray guns
- Road breakers
- General industrial – oil, grease solvents, air and water applications
