

DISPOSABLE PROTECTIVE SUIT WHITE XL

DUTI Code: 24800171

Wearer should read these instructions

Limitations

Exposure to certain chemicals or high concentrations, may require higher barrier properties of the fabric, or in the construction of the suit. Such conditions can be protected by garments made to the standards of Types 1 to 3 or possibly by a more protective material. Footwear appropriate to the intended use must be worn, especially where boots are attached. The integral boot is to be worn inside the appropriate footwear, and the aperture at the top the footwear taped to the leg of the coveralls.

Garment removal

Care should be taken with the removal of any garment which may have been contaminated. The use of an assistant wearing gloves should be used to peel back the garment from the wearer, taking care that no contaminant comes into contact with either the assistant or the wearer.

Compliance and responsibility

The user shall be the sole judge of the suitability for the type of protection required, and the correct combinations of coveralls accessories and ancillary equipment. To obtain full protection all apertures should be securely closed, but the user shall determine, and allow for the effect of heat when in use. Heat stress and discomfort can be reduced or eliminated by the use of appropriate undergarments or ventilation equipment.

Storage and disposal

The garments can be stored in accordance with normal storage practice, and disposed of without harm to the environment. Restrictions on the disposal depend solely on the contamination during use. If in doubt please contact your supplier. The manufacturer cannot accept responsibility for any improper use or disposal of garments produced by them.

Note: The year of manufacture is indicated on the packaging label on each carton.

Additional Warning: Flammable Material. Keep away from fire.
