

SDS PLUS HAMMER DRILL BIT

DUTI Codes: 09300011 to 09300735

DESCRIPTION & APPLICATION

PGM certified hardened steel 2 cutter SDS plus hammer drill bit with carbide tip for general purpose applications. The engineered SDS Plus shank features two sets of grooves that securely snap into the chuck, allowing for smooth vertical movement with enhanced hammer action and rotary concentricity. Available in various lengths and diameters to meet your hammer drilling requirement needs.
