

Hardwood Waxed Handle Stripping Knife

Product Sheet

Product Overview

The VJT Hardwood Handle Stripping Knife range is designed for general construction and trade applications where durable, rigid scraping and stripping performance is required.

Each knife features a full stainless steel blade for strength and longevity, combined with a waxed hardwood handle secured with steel rivets for a comfortable and reliable grip during repeated use.

Applications

- Removing paint, coatings, and surface build-up
- Stripping wallpaper and adhesives
- Scraping filler, plaster residue, and loose material
- Surface preparation prior to painting, patching, or re-coating
- General trade use for cleaning and levelling surfaces

Features

- Hardwood handle with steel rivets for durability and secure handling
- Full stainless steel blade for strength, corrosion resistance, and long service life
- Multiple blade widths available for different stripping and scraping requirements
