

Wrecking Bar Hex 45° Claw

Product Overview

The VJT Wrecking Bar Hex 45° Claw is a heavy-duty demolition and prying tool designed for strength, leverage, and control. Featuring a hexagonal steel shaft for improved grip and anti-roll handling, plus a 45° claw for easy access under materials, this bar is ideal for nail pulling, lifting, and general site demolition work. Available in multiple lengths to suit different levels of leverage and working environments.

Applications

- Demolition and strip-out work
- Prying apart timber, boards, and framing
- Removing embedded nails and fixings
- Lifting and levering materials into position
- Breaking apart pallets and temporary structures
- General construction, renovation, and maintenance work

Features

- Hexagonal shaft design for a secure grip and improved control
- 45° claw angle for easier access and leverage in tight spaces
- Ideal for nail pulling and material separation
- Heavy-duty steel construction built for tough site use
- Multiple lengths available to suit light prying through to maximum leverage tasks

Product Code & Blade Size Table

Product Code	Range	Length (in)	Diameter	Length (mm)
50500010	VJT Wrecking Bar Hex 45° Claw	18"	5/8"	450mm
50500020	VJT Wrecking Bar Hex 45° Claw	24"	3/4"	610mm
50500030	VJT Wrecking Bar Hex 45° Claw	30"	3/4"	760mm
50500040	VJT Wrecking Bar Hex 45° Claw	36"	3/4"	915mm
