

# Crowbar Hex Flat Chisel & Point

## Product Overview

The VJT Crowbar Hex Flat Chisel & Point is a heavy-duty leverage tool built for demanding demolition, lifting, and prying applications. Designed with a strong hexagonal steel shaft for durability and grip, it features a flat chisel end for wedging and lifting, and a pointed end for penetrating tight gaps and starting access in cracks and joints. Available in extra-long lengths for maximum leverage and reduced effort on tough jobs.

## Applications

- Heavy demolition and strip-out work
- High-force prying and levering
- Lifting heavy materials and shifting assemblies
- Breaking apart timber, pallets, and structures
- Opening gaps and separating bonded materials
- Accessing cracks and joints where a claw cannot reach

## Features

- Hexagonal shaft design for strength, improved grip, and anti-roll handling
- Flat chisel end for wedging, scraping, lifting, and getting under materials
- Pointed end for penetrating tight seams, cracks, and joints
- Extra-long lengths deliver maximum leverage and reduced user effort
- Designed for professional use in construction, demolition, and maintenance environments

## Product Code & Blade Size Table

Product Code	Range	Length (in)	Diameter	Length (mm)
50500070	VJT Crowbar Hex Flat Chisel & Point	48"	1"	1220mm
50500080	VJT Crowbar Hex Flat Chisel & Point	60"	1 1/8"	1525mm
