

GRIPPS®

H01067 WEBBING WRIST TETHER SINGLE-ACTION

The GRIPPS® Webbing Wrist Tether Single-Action is the most popular method of tethering hand tools. Manufactured from abrasion-resistant webbing, this tether facilitates secure attachment of hand tools to GRIPPS® gloves or wrist anchors.

With its swivel-mounted carabiners, the GRIPPS® Webbing Wrist Tether Single-Action offers 360-degree mobility, eliminating tangles and minimising strain on the tether during tool use.

KEY FEATURES

Compatible with the full range of GRIPPS® gloves and wristbands.

Two swivel-head single-action carabiners.

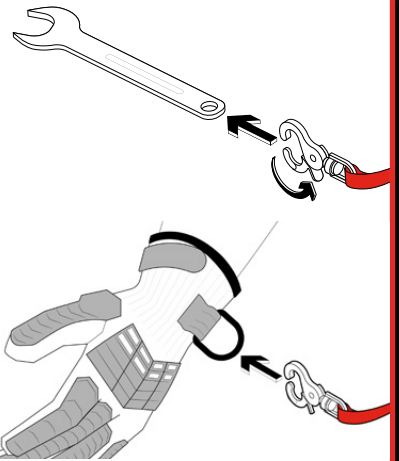

Lightweight and compact design.

Abrasion-resistant webbing.

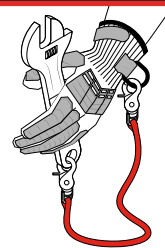

HOW TO USE

1

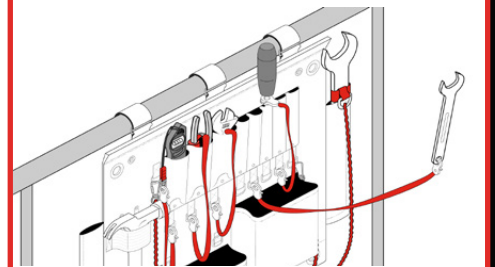

Squeeze the spring of the carabiner end to open the mouth of the carabiner. Release the carabiner once secured over your desired tool or anchor point.

2

Repeat step 1 for the opposite end of the tether.
