

# GRIPPS®

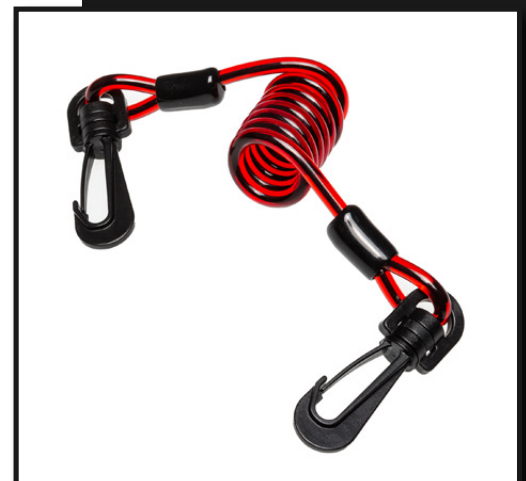

## H01062 COIL WRIST TETHER SINGLE-ACTION (NON-CONDUCTIVE)

*The GRIPPS® Coil Wrist Tether Single-Action (Non-conductive) is designed without any metal components, making it ideal for securing small electronic devices in environments with live electrical currents.*

The coiled design keeps the tether out of the way and minimises the risk of snags or tangles. The swivel-head poly clips allow for total control and ease of use when using the tethered tool.
