

SDS Plus Square Bush Head 32 x 32 x 145mm

Product Code: 50500440

Product Overview

The SDS Plus Square Bush Head Hammer is a heavy-duty surface preparation tool designed for use with SDS Plus rotary hammer drills. Featuring a 32 mm x 32 mm square bush head and an overall length of 145 mm, this tool is engineered for effective material texturing, roughening, and surface keying on concrete and masonry substrates.

Ideal for professional trades, the square bush head delivers consistent impact performance, making it suitable for demanding construction and renovation applications.

Applications

- Surface roughening of concrete and masonry
- Preparing substrates for plaster, render, tile adhesive, or coatings
- Texturing stone or concrete surfaces
- Removing surface residue or weak material
- Light demolition and surface dressing work
- Restoration and refurbishment projects

Features

- SDS Plus Shank - Compatible with all standard SDS Plus hammer drills for secure fitting and efficient power transfer.
- Square Bush Head (32 mm x 32 mm) - Provides uniform impact coverage for controlled and consistent surface texturing.
- Hardened Steel Body (HRC 46-52) - Heat-treated for enhanced toughness and resistance to deformation.
- 16 TCT Cone Tips (YG8C Grade) - Tungsten carbide tips deliver excellent wear resistance and extended service life in abrasive materials.
