

Section 3 Nails, Screws & Caps

1360 - Teks Screws

Description

This comprehensive range of high quality self drilling fasteners are designed to provide the industry with fixings that give very rapid and accurate installation with precision drill points eliminating 'skip action' to prevent damage to the face of the profile.

Advantages

- Super fast drill speed
- Excellent pull out in thin materials
- Extra thick deposit of zinc ensures resistance

Typical applications

For fixing profile metal, Cladding single skin or Insulation to cold rolled, rails and purlins 1.2 - 5.3mm Thick Steel

Cladfix for Thin Gauge Steel Zinc Plated

VJT Code	Type	Diameter (mm)	Overall Length (mm)	Steel Thickness (mm)	Head Style	Box Qty
