

# Ru-Fix

For fastening through insulation into metal decking. These quality fixings have extra high-low threads to

give a firm and positive anchor into metal decking. The 'Quick Drill' point gives a of 15mm into the deck to give the firm anchor these

items have been designed to achieve.

The special 82 x 40 oval washers ensure a very high pull over value when used in conjunction with the Ru Fix range.

## APPLICATIONS

Designed for build up roofing systems where maximum pullout in thin gauge deck is required.

## HEAD STYLES

Countersunk Phillips Recess No.2 and Hex 5/16" AF.

## BENEFITS

Ensures fast and effective fixing of bur with maximum pullout. Special tooling available details upon request.

## SPECIFICATIONS

Manufactured from carbon steel organically coded to give 240 hours salt spray testing.
