

1370 - Dektite Pipe Flashing System

Description

A one piece rubber flashing accommodating the flashing of various pipe and flue materials to a range of flat or profiled roof and wall sheets. For standard applications including plumbing, HVAC, dust extraction accommodates from 5mm diameter cables up to 480mm pipes & flues.

Advantages

- Made of long life, flexible, weatherproof grey EPDM rubber or red silicone
- Flexible, corrosion resistant aluminum base conforms to any panel configuration
- EPDM and silicone will not crack or break
- One piece construction is easy to install
- Pleated cone adjusts to any roof pitch and allows for complete flexibility
- EPDM has a continuous service temperature range up to 115°C
- Silicone has a continuous service temperature range up to 200°C
- Proven resistance to ozone and ultra-violet light

Typical applications

- Plumbing
- Heating
- Air Conditioning
- Electrical
- Exhaust Vents
- Dust Extraction
