
System accessories GDE 68 Professional

System accessories GDE 68 Professional

Practical, multi-purpose
dust extraction for large
drilling diameters

Technical data

Weight 325 g

Functions

Suitable for right and left
handers X

Part number

1 600 A00 1G7

Advantages: GDE 68 Professional

Practical, multi-purpose dust extraction for large drilling diameters

- **For clean, tidy operation and less cleaning work afterwards**
- **Easy to use: simply connect to a dust extractor**
- **Tool-independent: functions with all drilling tools**
- **No assembly on the machine required – no additional weight on the machine**
- **Perfectly harmonised with the Bosch Click & Clean System (direct extractor connection possible)**
- **Suitable for core cutters with up to 68 mm diameter (for larger diameters: GDE 162 Professional)**
- **Also very suitable for dust extraction during wet drilling**
