

System accessories GDE 162 Professional

System accessories GDE 162 Professional

Practical, universal dust
extraction for core cutters

Technical data

Weight 500 g

Functions

Suitable for right and left
handers X

Part number

1 600 A00 1G8

Advantages: GDE 162 Professional

Practical, universal dust extraction for core cutters

- For clean, tidy operation and less cleaning work afterwards
- Easy to use: simply connect to a dust extractor
- Tool-independent: functions with all drilling tools
- No assembly on the machine required – no additional weight on the machine
- Perfectly harmonised with the Bosch Click & Clean System (direct extractor connection possible)
- Suitable for core cutters up to 162 mm in diameter
- Also very suitable for dust extraction during wet drilling
