

SPECIALIZED FIBRE CEMENT BOARD (PCD)

B-22997

Makita's range of PCD Circular Saw blades designed to cut fibre cement board including "Hardy board", "Marley Weatherboard" and compressed concrete. One of the fastest growing environmentally friendly materials in the construction industry. An ultimate blade when it comes to Fibre Cement, outstanding performance results compared to a TCT blade or Diamond Continuous blade.

TECHNICAL SPECIFICATIONS

Bore (B)	20 mm
Diameter (D)	165 mm
Kerf (K)	2.1 mm
Rake (R)	10 °
Thickness (T)	1.4 mm
Tooth Count	4
Material Type	F.C.B
Machine Type	Portable Saw
Blade ID	CSC1654EPCD

USER BENEFITS

- Polycrystalline Diamond Tipped teeth for durability and longer life.
- Smoother, cleaner and more accurate cutting.
- Unbeatable performance in multiple layer cutting.
