

DENSITY FIXING

- 3 pins per m² for vertical installation.
- 5 pins per m² for ceiling installation.
- Maximum spacing between washer: 0.7 meter.

DESCRIPTION

- CR9P: Fastening of waterproof membranes
- CR9TP for PVC Washer (Ø80 mm) : using in tunnel for fastening of the geotextile for the waterdrainage. The layer is welded on the PVC washer.

PROPERTIES MATERIAL

- **Shank in carbon steel**
 - Hardness: 50 – 55 HRC
 - Electrogalvanizing, min zinc coating 7 µm
- **CR9P**
 - Plastic washer: Ø 35 mm
- **CR9TP**
 - Flat metallic washer
 - Ø 21.75 mm
 - Electrogalvanizing, min zinc coating 3 µm
 - Plastic tip for pin centering

TOOL

P370 single shot
