POWDER ACTUATED DISC CARTRIDGE TOOL

Adjustable magazine

4 adjustable positions give greater flexibility when working in confined spaces

Reload identification marker

Informs the user when to reload

Magazine or single shot tool

Automatic firing of up to 10 pins using the magazine

Automatic piston return

High install rate with low user fatigue

Sequential shot

Safety: tool needs to be actuated with 17kg of contact pressure to fire

Disc system

All-metal cartridges eliminate warping at high temperatures. Sequential disc system means less load wastage

Energy absorbing bumper

Absorbs vibration & reduces recoil during firing

Universal piston

No need to change piston for different substrates

The fully automatic Spitfire P370 is the professional's choice for shot fired fixings into steel, concrete & masonry

Power adjustment

Versatile: one pin and one load can be adapted to fix into different base materials

Easy maintenance

The fastest powder tool to dismantle, clean and re-assemble, allowing on site maintenance and reduced down time
