# NLG Non-Conductive D Ring Tool Tether

## NLG Non-Conductive D Ring Tool Tether Product code: 101375

Attach the Non-Conductive D Ring Tool Tether with Tether Tape to create an instant metal-free attachment point on any small hand tool.

NLG Non-Conductive D Ring Tool Tethers form part of NLG's unique Instant Tether System<sup>™</sup> for stopping dropped objects and is well established as the preferred option for workers at height. They can be retro-fitted to almost any tool avoiding the unnecessary expense of buying new tools or the associated downtime of sending tools off site to be adapted for tethering.

When used with Tether Tape<sup>™</sup>, the NLG D Ring Tether Points provide a solution to a multitude of tools commonly used at work. This metal-free version is uniquely suited to electrical work or using near sensitive surfaces.

#### INSTRUCTIONS

1/ Select the correct D Ring Tether for you tool.

2 / Cut a length of Tether Tape long enough to wrap around the tool at least 8 times. Remove the plastic backing.

3/ Check the tool is clean and locate the D Ring Tether, ensuring that the label is facing up. Wrap the Tether Tape around the D Ring Tether, leaving the webbing catch exposed.

4 / Ensure that the Tether Tape is firmly stretched during application. The self-fusing technology is activated when stretched between 5-10% and causes it to fuse permanently. 5 / Test the tether point before putting the tool into use.

#### INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

## Specification

- Non-conductive, lightweight ballistic plastic D Ring
- Extended product life with high strength, wear resistant webbing
- Extra deep catch design for ultimate security
- Faster visual inspections with contrast stitching
- Works with Tether Tape™
- Unique serial number for easy identification and tracking
- CE marked
- ANSI/ISEA 121-2018 compliant
- Dynamic load tested and third-party certified [2:1 safety factor]
- Dimensions: 60mm x 12mm
- Max Load: 1KG (2.2lbs)

#### MAX LOAD (SWL)

1KG / 2.2LBS

#### SERIAL NUMBERED

02 / Product

#### 03 / Conformity

The undersigned acting on behalf of [01] above hereby declares that:

The PPE described in [02] is in conformity with the provision and scope of our quality control and testing protocols set out in the PPE Regulation [EU] 2016/425 covering all PPE manufacturing, where such is the case, with the standard of fit for purpose design parameters. The above referred to Personal Protective Equipment [02] is identical to the equipment independently tested and certified by BSTL in accordance with EN 364:1992 test methods.

Dynamic drop perfomance testing conducted at 2:1 weight safety factor for tool lanyards and tether points. Static strength testing conducted at 5:1 weight safety factor for containers and storage equipment.
