

## NLG Mini Coiled Tool Lanyard - Technical Data

### Overview:

The NLG Mini Tool Lanyard has a PU Coating which is both cut and heat resistant, as well as hard wearing. A reinforced nylon core reduces weight but does not compromise performance. Due to its light weight it is perfect for small tools, meters, instruments, mobile phones, cameras and electronic equipment. This small tool lanyard which rotates through 360° can be used from a wristband, belt or harness and is ideal for confined spaces or where there is a risk of snagging.

This tool lanyard is versatile, lightweight and is particularly useful in Nuclear and Utilities. Can be used for tools and equipment weighing up to 1KG.

### Key Features:

- Very compact and lightweight, perfect for use in confined spaces
- Coil is coated with puncture and abrasion resistant PU for durability
- 360° Clip ensures that the lanyard does not tangle or twist
