NLG 8 Ring Adaptor, Medium

Product code: 101426

PRODUCT BRIEF / 101426

The 8 Ring Adaptor provides a tangle-free tether point for screwdrivers and doesn't affect the ergonomics of the handle.

The NLG 8 Ring Adaptors offer a very simple solution to a complex problem – how to tether tools that must freely rotate through 360 degrees – and provide a tangle-free tether point, leaving the handle free of obstruction.

Available in different sizes to suit the diameter of the shaft of the tool, they are all rated up to a maximum weight of 0.5kg. The rubber collar is simple and very quick to apply and prevents the 8 Ring from coming off the tool.

INSTRUCTIONS

- 1/ Select the correct size of 8 Ring for the screwdriver. The rubber collar should provide a tight fit.
- 2/ Slide the 8 Ring down the shaft of the screwdriver, up to the base of the handle.
- 3/ Stretch the rubber collar over the tip of the tool. Roll the barrel of the collar back and push down the shaft to secure the 8 Ring.
- 4/ Test the tether point before putting the tool into use.

INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

Specification

- Engineered for screwdrivers with shank diameter of 3.9mm - 6.3mm
- Uncomplicated design allows fast and trouble-free installation
- Tough stainless steel 8 Ring provides anti-tangle tether point
- Flexible rubber collar built to withstand harsh work environments
- Dynamic load tested and third party certified
- Max Load: 0.3KG (0.75lbs)

MAX LOAD (SWL)

0.3KG / 0.75LBS
