

Never compromise on quality!

WHITE SPIRIT

Organic Cleaning Solvent

Description

Bond It WHITE SPIRIT is a top quality low-odour organic solvent refined to meet the requirements of BS 245 Type A. It is suitable for general cleaning purposes, brush cleaning and paint thinning. It is more suitable for paint thinning than other solvents, as it will not affect the drying time of oil-based paints.

Uses

- Brush cleaning
- Paint thinning
- General cleaning

Directions

Brush Cleaning

When cleaning brushes, use a non-plastic dish or jar. Remove as much paint as possible using a cloth or newspaper. Test a small part of textiles for suitability and colour fastness. Dip the brush into Bond It White Spirit working well in, then rinse thoroughly with warm soapy water and dry with a clean cloth.

General Cleaning

To clean up spills, pour a quantity of white spirit onto a suitable cloth and wipe the surface until all paint has been removed. First testing surfaces and material for colourfastness.

Paint Thinning

Add White Spirit to paint as per paint manufacturers instructions. Stir well to ensure thorough dispersion of product.

Storage Conditions

Store in cool, dry, well ventilated conditions in a sealed container between 5 and 30°C. Store in correctly labelled containers.

Shelf Life

5 years when stored in original, unopened containers.

Size

2L and 750ml.

Safe Handling Precautions

Please refer to separate material safety data sheet for full handling, use and storage instructions. Keep out of reach of children. Dispose of contents/container to hazardous waste collection point. TO AVOID THE RISK OF SPILLAGE ALWAYS ENSURE THAT THE CAP IS SECURE AND THE CONTAINER IS HELD UPRIGHT DURING TRANSPORTATION & STORAGE.

It is the users responsibility to determine suitability for use. If in doubt contact our Technical Department for advice.

Note: this information is for general guidance only, since site conditions and labour are beyond our control. It is recommended that users make their own tests to determine suitability.

Specification Summary

Physical State	Liquid
Form/Colour	Colourless, water-thin
Odour	Distinctive petroleum type
Boiling Point	150 - 200°C
Flashpoint (PMCC) 38	38-40°C
Auto Ignition Temperature	230°C
Explosive Limits (In air)	0.6-8.0 Vol %
Vapour Pressure	<10 mbar @ 37.8°C
Density (15°C)	0.770 g/m;
Viscosity	0.8mm ² /s @ 40°C
Aromatic Content	25%

Container Sizes

Code:	BDWS2	BDWS750
Size:	2L	750ml
Barcode:	5060021371447	5060021371430

Shipping Classification

Correct Shipping Name: Turpentine Substitute (White Spirit)

Classification: Class 3

UN Number: UN 1300

Packing Group: III

Flash Point: 40 Degrees Celsius

Additional Information: Marine Pollutant

Customs Tariff Code: 2710 1221

The data presented in this leaflet are in accordance with the present state of our knowledge, but do not absolve the user from carefully checking all supplies immediately on receipt. We reserve the right to alter product constants within the scope of technical progress or new developments. The recommendations made in this leaflet should be checked by preliminary trials because of conditions during processing over which we have no control, especially where other companies raw materials are also being used. The recommendations do not absolve the user from the obligation of investigating the possibility of infringement of third parties rights and, if necessary clarifying the position. Recommendations for use do not constitute a warranty, either express or implied, of the fitness or suitability of the products for a particular purpose.
