DATA SHEET

Ceiling Angle Suspension Brackets (2506800 - 00600060)

We confirm our range of Ceiling Angle Suspension Brackets are manufactured from Pre-Galvanised Mild Steel (BS EN 10142 - DX51D) with the following characteristics:-

DX51D:

Material is of bending and profiling quality

Tensile Strength:

270 to 500 N/mm²

Elongation:

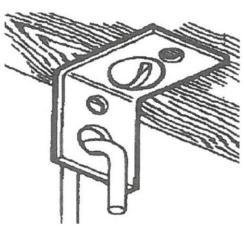

Minimum 22%

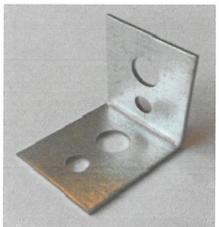

Finish:

Passivated to protect the surafce rom corrosion wih surface

spangle up to 5mm across

For details of all above data refer to attached table (MTC-A1)

Applications & Design Features

- For fixing to timber
- Maximum recommended load 7Kgs when installed as per the diagram (with a safety factor 3:1 from 21Kgs)
- Fire Rating A1 (non-combustible material)

Installation Requirements

- Fix to timber via large inside hole with a wood screw.

This declaration of conformity is valid until there is significant change in the product and characteristics.
